THINK GREEN!

We are committed to hosting an environmentally friendly event. Here are some tips to 'green up' your exhibit:

- Avoid the use of Styrofoam. Reduce waste by using **recyclable or biodegradable** paper plates, napkins and beverage containers.
- Utilize the available **on-site Recycle/Organics collection stations**; we will be separating organics, refundables, cardboard and recycling.
- Be mindful of the amount of brochures you distribute; offer information to the public via your website as an alternative.
- Avoid giveaways that have a short lifespan or are not recyclable. ***Use of helium balloons is discouraged at this event.***
- Reduce your carbon emissions to get to the event; walk, bicycle or carpool with your co-workers/fellow volunteers.
- Bring re-usable water bottles. Water filling stations are on site.

Preference will be given to those who provide environmentally responsible products.

THINGS TO CONSIDER

Canada Day in Coquitlam is one of the largest events in the Lower Mainland. In 2024, over 100,000 people attended the event, with over 30,000 people in attendance for the Fireworks finale.

Please consider the amount of product you will require and how to safely store it on-site.

If you are providing your own tent you must have four (4) tent weights. Extra tent weights can be rented for an additional cost.

Vendor selection and placement is at the sole discretion of event organizers.
